Dear FCC:

There you sit in your cushy govt. jobs thinking up new ways to extract more money from the average worker. You think if you take a little here and a little there nobody will notice, bull****.

My local phone taxes and other charges are now 60%
of the total bill. Don't raise taxes cut government
like take a pay cut, oh I know you don't like that idea, especially you Mike Powell what did you ever do to deserve that job? Thanks daddy.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
